processed in the succeeding month. This results in a one month's lag in recording incurred costs. In accordance with the method proposed in the Memorandum for the Chairman, Comptrollers Policy Planning Group, dated 27 February 1959, a standard has been determined for to be used as a basis for recording accrued costs. This standard represents an average monthly expenditure based on a study of each Station's last six month's activities. Worksheets supporting these standards are on file with the Chief, Operations and Liaison Branch.

- 2. The appropriate Cartifying Officer will prepare a voucher based on the standards referred to in paragraph 1 above by making a charge to Account No. 605—Accrued Cost—and crediting Account No. 365. This voucher will reflect accrued costs for each cost center involved and costs will be broken down by object class. He will submit this voucher to the Accounts Branch no later than 3 November 1959.
- 3. The entry referred to in paragraph 2 above will remain on the records indefinitely as the monthly accrual, subject only to increase as per paragraph 4 below or adjustment as per paragraph 5 below. Accrual figures will be reviewed as at 30 June to determine, as nearly as possible, their accuracy.

- 5. Should it be necessary to accrue more than one month's standard, as in the instance cited in paragraph 4, the additional amounts will be reversed from Account No. 605 and Account No. 365 as soon as the accountings become current again; i.e., reverts to the normal one month's recording lag.
- 6. A review shall be made of the standard s accuracy on a quarterly basis. If significant variations are detected, the standard will be adjusted and the accrual figure will be corrected.
- 7. To aid the Certifying Officer in the control of these accounts, a control sheet shall be maintained for each installation. (See Attachment 2). This control sheet will reflect the current accrued cost status
